

# Access to Care by State

## California

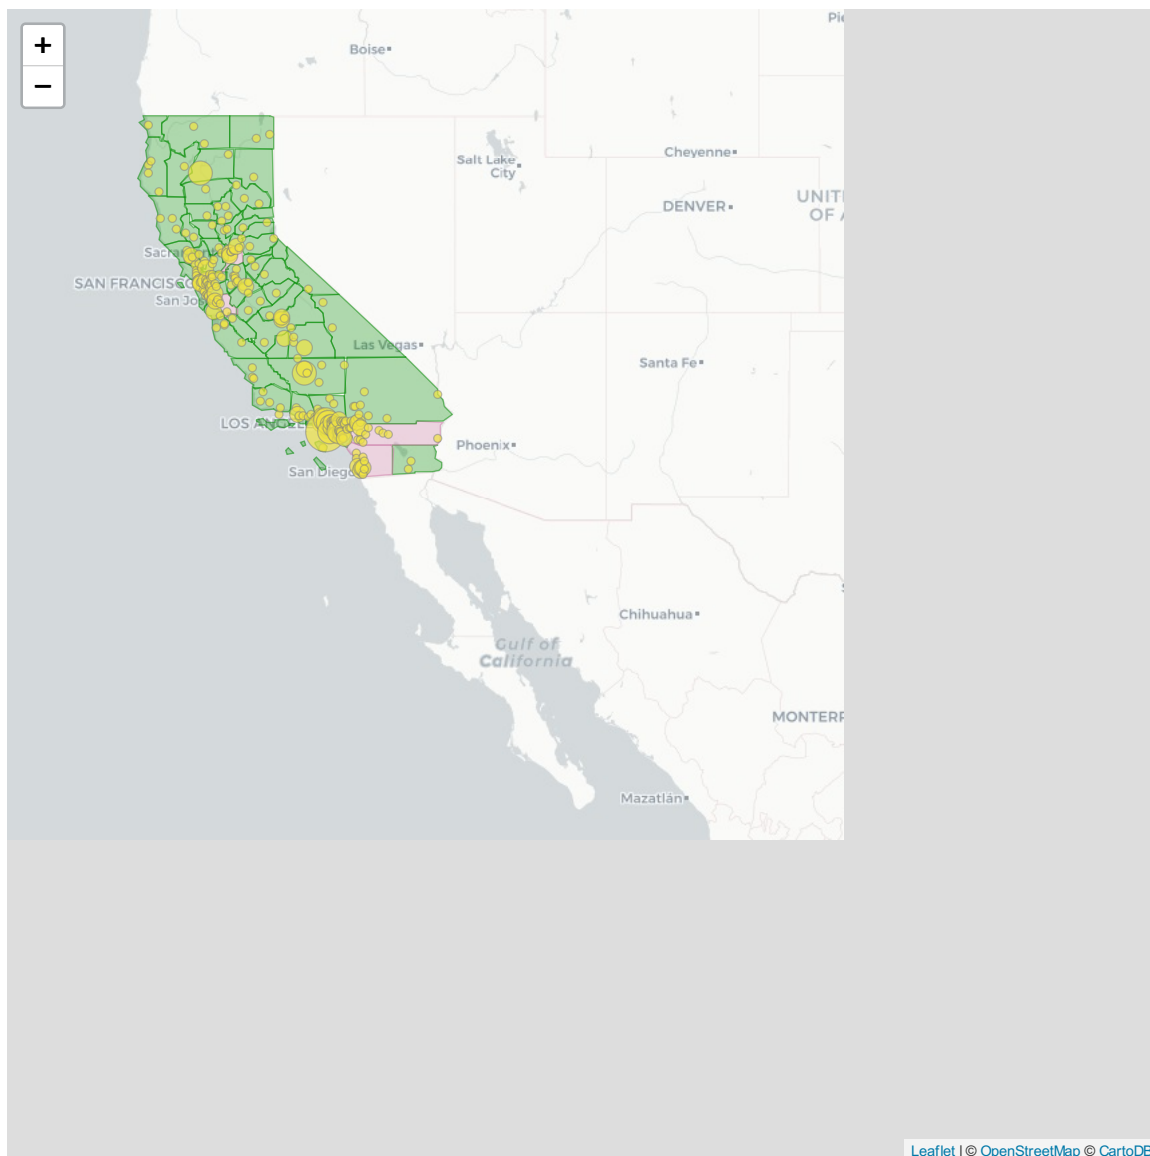

### Background

We are trying to determine which counties in **California** have comparatively more access or less access to hospital care.

A **statistical model using data from across the country** is used to identify those counties that have more or less than the model expects the specific county to have.

### County Map

Breakdown of counties and their status based on county population compared to the number of hospitals

## County Data

Here is the county level data used in this report

State	County	Population	Hospitals	Expected	Model Result
California	Alameda	1638215	13	14	Acceptable
California	Alpine	1110	0	1	Acceptable
California	Amador	37001	1	1	Acceptable
California	Butte	225411	4	2	Acceptable
California	Calaveras	44828	1	1	Acceptable
California	Colusa	21482	1	1	Acceptable
California	Contra Costa	1126745	7	10	Acceptable
California	Del Norte	27254	1	1	Acceptable
California	El Dorado	184452	2	2	Acceptable
California	Fresno	974861	9	8	Acceptable
California	Glenn	28017	1	1	Acceptable
California	Humboldt	135727	4	2	Acceptable
California	Imperial	180191	2	2	Acceptable
California	Inyo	18260	2	1	Acceptable
California	Kern	882176	10	8	Acceptable
California	Kings	150965	2	2	Acceptable
California	Lake	64591	2	1	Acceptable
California	Lassen	31345	1	1	Acceptable
California	Los Angeles	10170292	83	81	Acceptable
California	Madera	154998	1	2	Acceptable
